**Mold Sniffing Dog**

**Wednesday, September 17,  
2003**

Another problem popping up in homes flooded by heavy rains two weeks ago-- mold. That's why "Boots", an 11-month-old great dane & lab mix, was called in. He's certified, licensed and trained to sniff out harmful, invisible mold in homes and buildings. There are only 35 mold sniffing dogs in the country---boots is the only one licensed in Pennsylvania. To contact Pennsylvania Mold Dog, you can call 262-m-d-o-g or check them out online at [www.PAMoldDog.com](http://www.PAMoldDog.com). By the way, the fee to borrow Boots' nose-- \$245 dollars.
